ARKTURA

SoftGrid® Round

Ceiling **Baffles**

Fueling Possibilities®

Our Key Features

Round's acoustic ceiling modules create a circular shape using consistently spaced panels at different lengths, for a structural design that's sure to impress while also providing acoustic support due to the Soft Sound® material. Round's baffles create a continuous series of rings that can connect together for an intricate design that emcompasses the whole ceiling or can be focused over a singular area for focused acoustic support.

Reduce Noise & Enhance Acoustics

SoftGrid®'s Soft Sound® material reduces the impact of noise from everyday annoyances like ringing, typing, and chatter resulting in a more pleasant and productive environment. SoftGrid®'s material works in concert with the design to help reduce and control reverberations leaving a lasting impression at scales ranging from assembly halls to conference rooms.

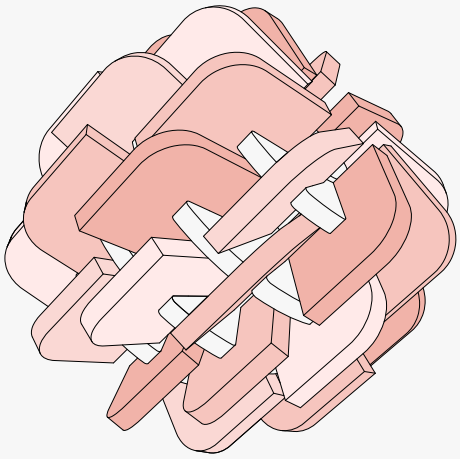
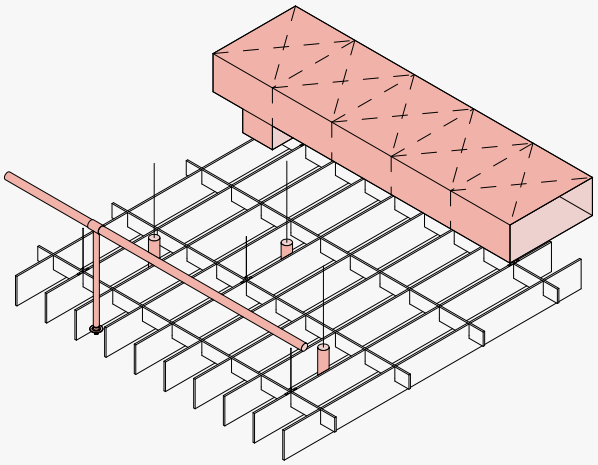
Our Key Features



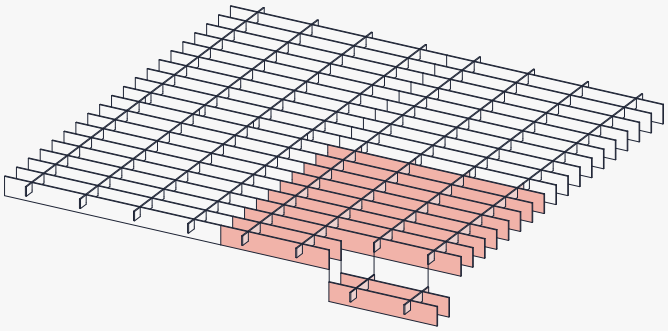
Expansive Soft Sound® Library

Choose from a large library of Soft Sound® colors and wood textures. Mix and match colors to accent fins and complement the color scheme of your space.



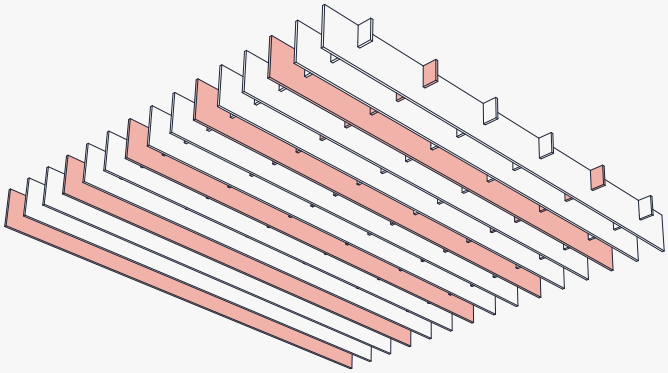
Open Accessibility in Plan

SoftGrid®'s open grid design makes integrating systems above or below the modules simple and feasible. Easily removable fins and open structure makes accessing lights, HVAC, rigging points, plumbing, AV equipment, and life safety systems easy for your maintenance team.



Preconfigured Field Trimmable Solutions

SoftGrid® modules can be trimmed down to a minimum of four fin intersections. By rearranging our adjustable hangers; we make it easy for you to specify standard modules that can be easily field-modified around anticipated and unforeseen site conditions during install.



Duo Capability

Add new dimensions of style, mix colors and textures in a expanding range of dynamic combinations to fully achieve your design intent. Perfect for incorporating branding or composing a dynamic two-tone transformative field.

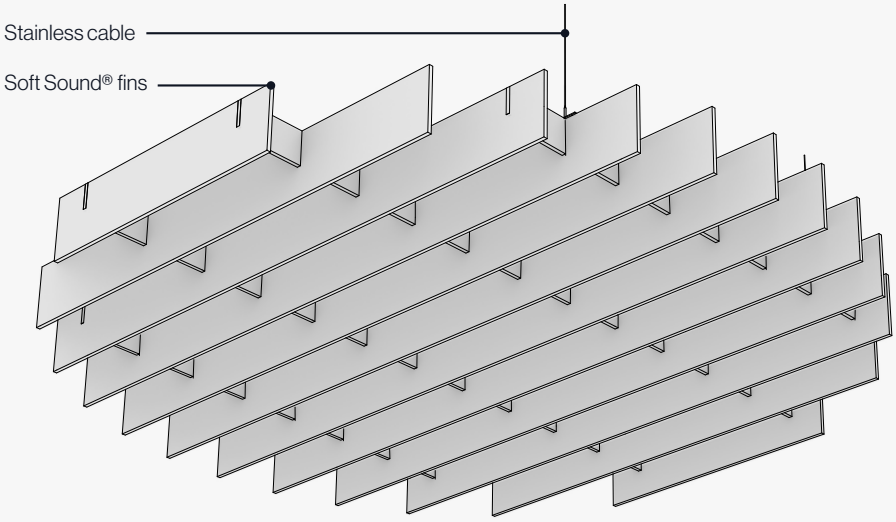
3 Product Specifications

1 Understanding the System

Standard Module

Modules are made from Arktura's lightweight & durable Soft Sound® acoustical material with stainless steel brackets.



Multiple Modules

Modules can be tiled in multiple directions in plan utilizing their hexagonal geometry. Modules may all be stepped in section or placed in a continuous plane.

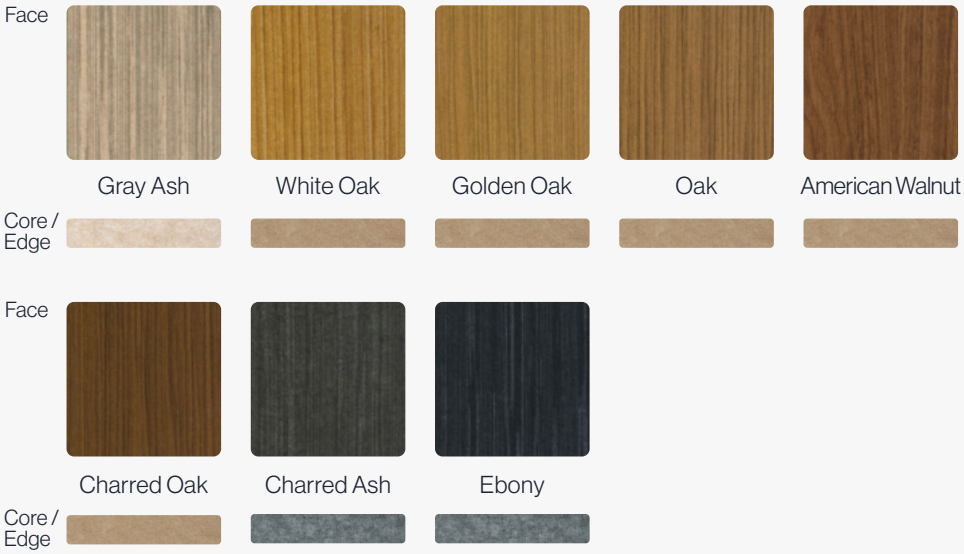
ⓘ As with natural wood, variation in color and grain is expected and grain will not align across panels.



ⓘ Due to the nature of non-woven materials, light may pass through Soft Sound® in any thickness or color. A translucent appearance is most apparent in lighter colors and thin material when a light source is present behind the material. Arktura makes no claims or warranties about the material performing as opaque in any circumstance. To verify a products performance for light transmittance, a mockup of the specific intended use is recommended.

3 Product Specifications & Certifications

System Specs

Dimensions (WxLxD)	Round: 7'-9 11⁄16" x 7'-4 7⁄16'' x (Min. 4" Max. 7½") Round Max: 9' x 9' x (Min. 4" Max. 7½")
Material	12mm Soft Sound® (PET), Stainless Steel
Openness in Plan	Round: 94% ; Round Max: 98%
Fire Rating	ASTM E84 - Class A
Acoustics	True NRC® (F-100 Method) Round: 0.60 ; Round Max: 0.35
Attachment Method	1⁄32'' Stainless Cable and Hardware
Accessibility	Yes, quick release cables
Trimmability	Yes, per installation manual
