SoundAngle[®]

Ceiling **Baffles**

Our Key Features

SoundAngle® ceiling system's V-shaped baffles offer a scalable way to add dimensionality and decrease acoustical reverberations across spaces. Its angled face design and construction from our Soft Sound® acoustical material (100% PET plastic with up to 50% recycled content) combine to dramatically reduce noise from all directions. SoundAngle® can be configured in numerous ways to adapt to existing structural elements and fit your design vision. Choose from two depths and a range of lengths, all available in a variety of colors and finishes, including wood-grain textures. See our Soft Sound® brochure for more information.

Reduce Noise & Enhance Acoustics

SoundAngle®'s Soft Sound® material reduces the impact of noise from everyday annoyances like ringing, typing, and chatter resulting in a more pleasant and productive environment. Its material works in concert with the design to help reduce and control reverberations leaving a lasting impression at scales ranging from assembly halls to conference rooms.

Minimal Hanging Hardware

SoundAngle® provides structure and support with an angled metal bracket and thin suspension cable that is virtually invisible when viewed from below.

More about SoundBar®

Our Key Features

Expansive Soft Sound® Library

Choose from a large library of Soft Sound® colors and wood textures. Mix and match colors to accent fins and complement the color scheme of your space.

Profiles to Suit Your Needs

SoundAngle® is available in a range of lengths, heights, and configurable options, giving you complete design flexibility

Open Plan Accessibility

SoundAngle®'s open design makes integrating systems above or below the modules simple and feasible. Easily removable fins allow access to larger systems and the open structure makes accessing lights, HVAC, rigging points, plumbing, AV equipment, and life safety systems easy for your maintenance team.

Inspiration

Integrate Acoustic Control with SoundAngle®'s Soft Sound® Material

Create Dynamic Effects with Unique Installations

Easily Integrate Lighting

Baffle Color

Soft Sound®
Standard

					
Onyx	Carbon	Graphite	Heather Gray	Marble	Cortez
					
Baltic	Caspian	Denim	Sky Blue	Tidal	Whisper
					
Nori	Cypress	Pebble	Kiwi	Bamboo	Seafoam
					
Sienna	Tangerine	Sorbet	Honey	Lemon	Buttercream
					
Ube	Plum	Apple	Azalea	Blush	Cosmos
					
Truffle	Morel	Taupe	Sand	Snow	White

ⓘ Due to the nature of non-woven materials, light may pass through Soft Sound® in any thickness or color. A translucent appearance is most apparent in lighter colors and thin material when a light source is present behind the material. Arktura makes no claims or warranties about the material performing as opaque in any circumstance. To verify a products performance for light transmittance, a mockup of the specific intended use is recommended.
