SoftGrid® Trella

Ceiling **Baffles**

Fueling Possibilities®

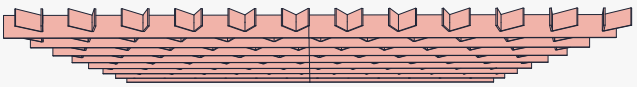

Our Key Features

Crisscrossing linear baffles made of our Soft Sound® acoustic material make up the lattice-like structure of SoftGrid® Trella. Connect multiple Trella modules to create a vast trellis across your ceiling, blanketing a room in auditory serenity. To further customize your acoustic experience, these cloud systems are available in a wide variety of Soft Sound® finishes, including premium wood textures, and Duo Tone finish, unlocking new design possibilities.

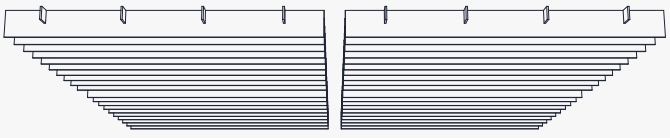

Reduce Noise & Enhance Acoustics

SoftGrid®'s Soft Sound® material reduces the impact of noise from everyday annoyances like ringing, typing, and chatter resulting in a more pleasant and productive environment. SoftGrid®'s material works in concert with the design to help reduce and control reverberations leaving a lasting impression at scales ranging from assembly halls to conference rooms.

Our Key Features

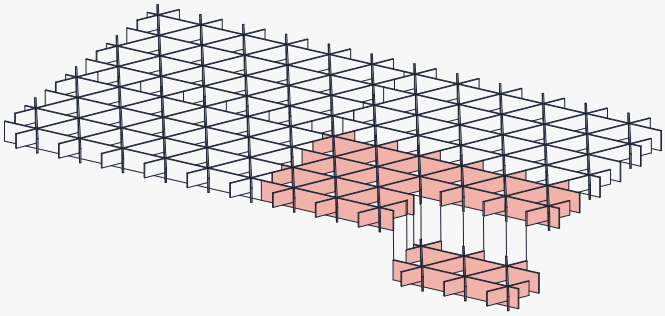

Expansive Soft Sound® Library

Choose from a large library of Soft Sound® colors and wood textures. Mix and match colors to accent fins and complement the color scheme of your space.

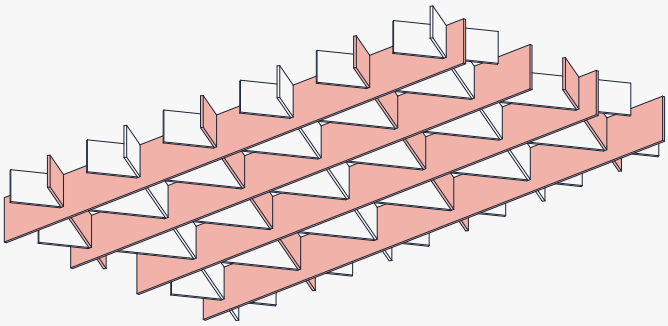

Open Accessibility in Plan

SoftGrid®'s open grid design makes integrating systems above or below the modules simple and feasible. Easily removable fins and open structure makes accessing lights, HVAC, rigging points, plumbing, AV equipment, and life safety systems easy for your maintenance team.

Preconfigured Field Trimmable Solutions

SoftGrid® modules can be trimmed down to a minimum of four fin intersections. By rearranging our adjustable hangers; we make it easy for you to specify standard modules that can be easily field-modified around anticipated and unforeseen site conditions during install.

Duo Capability

Add new dimensions of style, mix colors and textures in a expanding range of dynamic combinations to fully achieve your design intent. Perfect for incorporating branding or composing a dynamic two-tone transformative field.

Inspiration

Utilizing a hidden fin-to-fin alignment system provides continuity in all directions across your space.

Minimal hardware creates an immersive experience

Openness allows for integration of building systems

3 Product Specifications

1 Understanding the System

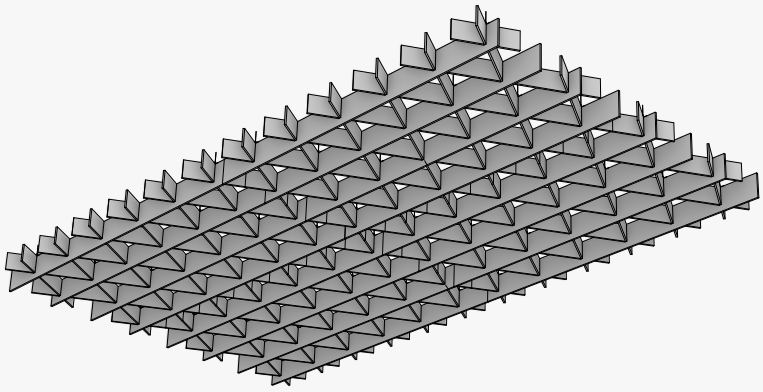

Standard Module

Modules are made from Arktura's lightweight & durable Soft Sound® acoustical material with stainless steel brackets.

Multiple Modules

Modules can be continuously tiled in multiple directions in plan, using the provided connecting brackets.

ⓘ As with natural wood, variation in color and grain is expected and grain will not align across panels.

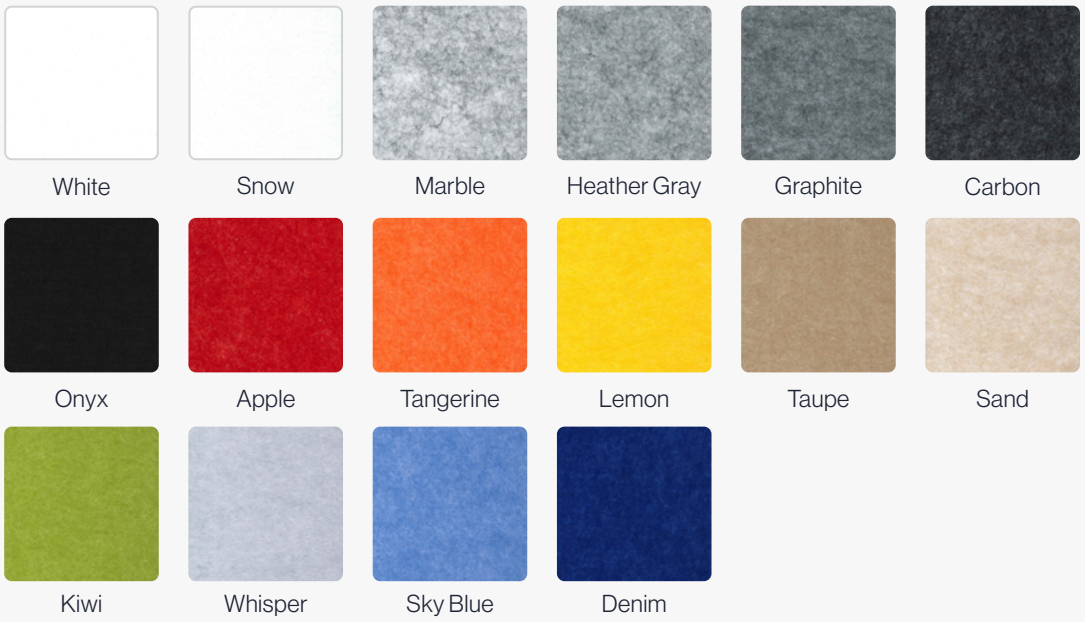

ⓘ Due to the nature of non-woven materials, light may pass through Soft Sound® in any thickness or color. A translucent appearance is most apparent in lighter colors and thin material when a light source is present behind the material. Arktura makes no claims or warranties about the material performing as opaque in any circumstance. To verify a products performance for light transmittance, a mockup of the specific intended use is recommended.

3 Product Specifications & Certifications

System Specs

Dimensions (WxLxD)	5'-2⅜"x 9'-0" (Min. 5¾" Max. 8")
Material	12mm Soft Sound® (PET), Stainless Steel
Openness in Plan	91%
Fire Rating	ASTM E84 - Class A
Acoustics	True NRC® 0.70 (F-100 Method)
Attachment Method	1/32" Stainless Cable and Hardware
Accessibility	Yes, quick release cables
Trimmability	Yes, per installation manual
