RGBW

Lighting

Our Key Features

Arktura's RGBW Lighting illuminates our metal panel systems with vibrant brilliance. This dynamic accessory transforms ordinary panel surfaces into animated displays, offering a variety of programmable colors to wash your design in a captivating glow. Go beyond static illumination and explore captivating movement with customizable Auragrams™, creating stunning sequences of color that flow, pulse, and dance across your project.

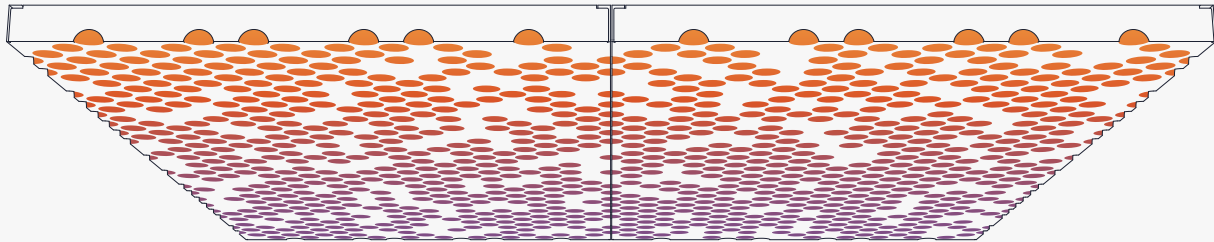

Seamless Integration with Arktura Systems

Designed for compatibility with a range of Arktura interior or exterior panel systems, including Vapor®, Delta Drop®, and Graphic Perf®, this lighting accessory offers seamless installation.

More about RGBW Lighting

Our Key Features

Vibrant and Customizable Illumination

Transform ordinary metal panel surfaces into captivating displays with Arktura's RGBW Lighting. Offering a wide variety of programmable colors and three white light tones (Cool, Neutral, and Warm), this accessory enhances the aesthetic appeal of your designs, ensuring an immersive experience that captivates onlookers.

Dynamic Motion Displays with Auragrams™

Elevate your projects with customizable Auragrams™, featuring a library of 10+ pre-programmed dynamic patterns. These vibrant sequences allow designers to add movement and energy to their spaces, creating mesmerizing environments that adapt to different settings and moods.

User-Friendly Control and Cost-Effective Solutions

Equipped with a wall controller kit, users can effortlessly cycle through colorful motion sequences, quickly adapting the ambiance for any occasion. This vibrant solution enriches client projects and enhances brand experiences by delivering dynamic and memorable lighting.

Inspiration

RGBW Lighting can be used with wall and ceiling panels to create illuminated, immersive spaces.

Colorful designs create branded spaces.

Find the right light with 3 distinct White light modes.

Inspiration

Calming motion is ideal for focused areas.

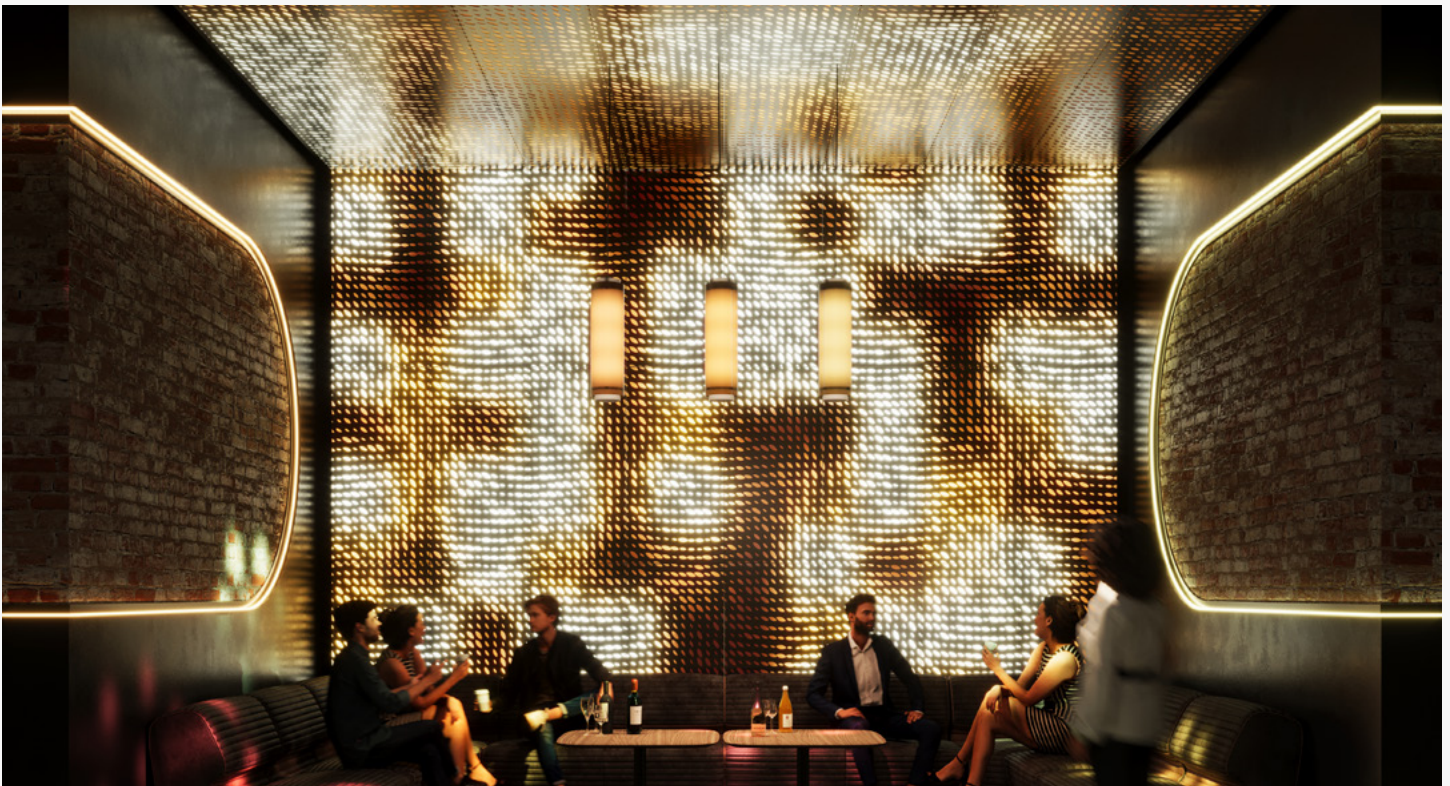

Colorful displays provide eye-catching designs for exterior facades.

Inspiration

Pulsing patterns evoke a feeling of welcome for viewers.

Energetic designs bring life to busy spaces.
